# J - TAP

# The J-Tap

## **A multi talented Tap for many applications**

With its Craft style appearance, the innovative J-Tap is an elegant approach to serve a wide and new variety of cold beverages with exceptional quality.

The J-Tap is meant to be mounted in traditional Towers, located in a prominent position in the bar with excellent visibility and practicality.

The J-Tap can be configured for a wide variety of beverage combinations without compromising with quality, performance and design.

The J-Tap has a unique product blending feature which is both hygienic, effective and at a remarkable carbonation level.

With all improved features combined, the J-Tap makes it possible to deliver an exciting new tasting experience to customers.
