4 brands 1 stop shop

EN

Four trusted brands, each an industry leader in their own right, now combined for the convenience of a "one stop shop" with the advantages of an international footprint. Beverage solutions under one prominent, innovative name - Aalberts Dispense Technologies. Four brands of the highest quality endorsing the philosophy that "Individual talent may win races, but it is teamwork that wins championships". Aalberts Dispense Technologies is determined to provide the best components and concepts for total beverage dispensing solutions while delivering unparalleled quality across all applications. This catalogue is the starting point to an easy and concise source to review options and plan for the future.

ES

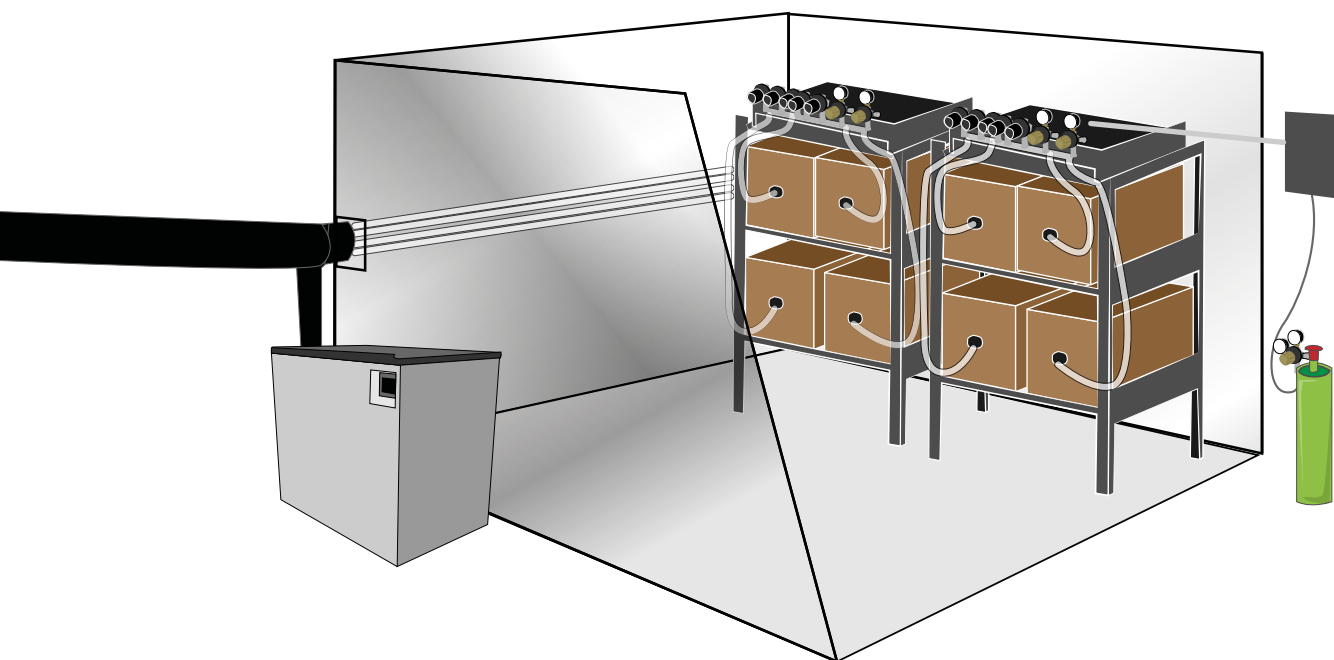

Cuatro marcas de confianza, cada una líder de la industria en su propio derecho, ahora se combinan para la conveniencia de un "ventanilla única" con las ventajas de una huella internacional. Soluciones de bebidas bajo un nombre prominente e innovador - Aalberts Dispense Technologies. Cuatro marcas de la más alta calidad apoyando la filosofía de que "talento individual puede ganar carreras, pero es el trabajo en equipo que gana campeonatos". Aalberts Dispense Technologies está decidida a proporcionar los mejores componentes y conceptos para las soluciones de dispensación total de bebidas, a la vez que ofrece una calidad sin precedentes en todas las aplicaciones. Este catálogo es el punto de partida para una fuente fácil y concisa para revisar las opciones y planificar para el futuro.

DE

Vier vertrauenswürdige Marken, jeder ein Branchenführer in seinem Segment, kombinieren Ihre Synergien um international den Vorteil zu gewährleisten, sämtliche Produkte aus einer Hand anzubieten. Hochwertige Produkte für die Getränkeindustrie unter einem innovativen und renomierten Namen - Aalberts Dispense Technologies. Vier Marken von höchster Qualität, die die Philosophie unterstützen, dass: „Einzelne Talente Rennen gewinnen können aber im Team Meisterschaften zu gewinnen“. Aalberts Dispense Technologies hat den Anspruch, die besten Komponenten und Konzepte für komplette Schankanlagen in der Getränkeindustrie zu liefern und gleichzeitig eine unvergleichliche Qualität in allen Applikationen zu generieren. Als Einleitung stellt dieser Katalog für Sie eine strukturierte und informative Quelle dar, um Alternativen zu prüfen und für die Zukunft zu planen.

IT

Dall'unione di quattro marchi di fiducia, ognuno di essi leader nel proprio settore, nasce il "one stop shop" di Aalberts Dispense Technologies: un'unica realtà che coniuga la comodità di un punto vendita integrato ai vantaggi di un'impronta internazionale. Aalberts Dispense Technologies offre soluzioni innovative per bevande alla spina condividendo la filosofia che "Il talento ti fa vincere una partita. L'intelligenza e il lavoro di squadra ti fanno vincere un campionato". Aalberts Dispense Technologies si pone l'obiettivo di offrire idee e soluzioni a 360 gradi e di prima qualità. Questo catalogo è il punto di partenza per scoprire l'ampia gamma di alternative per i vostri progetti futuri.

Fusion Premium

Body:

- Anodized extruded aluminum in black or gray brushed metal finish.
- LED illuminated logos and customizable central plate.

Valves:

- 5, 6 or 8

Dimensions without valves

(Height x Width x Depth):

- 540 x (420 to 600) x 190 mm
- 21.26 x (16.54 to 23.62) x 7.48 in

Black Version

STB Evolution

For a rapid switch
from carbonated to
non-carbonated
beverage

Fusion T

Body:

- Anodized extruded aluminum with brushed metal finish.
- Central laser engraved logo.
- With optional acrylic glass crowner

Colors:

- Black or Grey

Valves:

- 5, 6 or 8

Dimensions without valves

(Height x Width x Depth):

- 450 x (420 to 600) x 190 mm
- 17.72 x (16.54 to 23.62) x 7.48 in

Bubbling

Body:

- Extra resistant high density resin.
- Improved marketing effect with real bubbling technology.
- LED illumination.

Global Skeleton with STB

- For a rapid switch from carbonated to non-carbonated beverage.

Valves:

- Up to 6

Dimensions without valves

(Height x Width x Depth):

- 546 x 600 x 290 mm
- 21.5 x 23.62 x 11.42 in

Black Version

Double Red Head

Body:

- Extra resistant high density resin.
- LED illumination.

Colors:

- Red or Grey

Ways:

- Up to 6

Dimensions without valves

(Height x Width x Depth):

- 600 x 500 x 380 mm
- 23.62 x 19.68 x 14.96 in

Grey Version

- customer serve application

Magic Touch Tower

Body:

- Aluminum and ABS
- Double sided LED illuminated logo in relief
- Front big Gel Badge sticker

Dispense:

- 6 post-mix syrups + SODA + WATER
- Multi-flavor Schroeder America valve with all the flow controls easy to access by simply lifting the upper lid.
- (6 to 8 brands with a single nozzle)

Push to Pour or Portion Control

- Suitable to be installed on a Drop-in

Dimensions without valves

(Height x Width x Depth):

- 460 x 596 x 224 mm
- 18.11 x 23.46 x 8.81 in

7" Touch Screen

Save service time

Choose the drink with a single touch

Embossed logo
Backlit illuminated

Dimensions without valves

(Height x Width x Depth):

- 440 x 230 x 330 mm
- 17.32 x 9.05 x 12.99 in

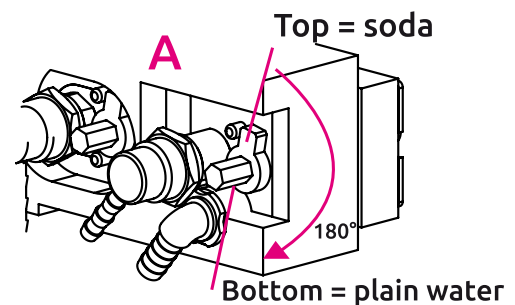

Rear View

Flexibility and cost effectiveness

Super Technical Block:

- The Super Technical Block technology is a flexible and cost-effective solution as it allows the rapid switch of the supply of carbonated/non carbonated water to each post-mix valve. By simply turning a lever you can dispense either a carbonated soft drink or a non carbonated beverage, right on the point of sale without having to remove or replace the tubings.
- The S.T.B. Evolution technology simplifies the installation of any kind of tower or countertop unit, adding life value to the existing portfolio of units.
- Compatible with drop in equipment!

Claddings

- The Global Skeleton Tower concept allows to keep the technical part with valves and tubing installed and simply
- change the cladding.
- The tower image is renewed with a considerable saving (up to 70% less than the price of a complete new tower). The best solution to get a brand-new tower by simply investing round 30% of the tower regular price.
- Coca-Cola approved!

R290 coolant gas and extra fuel compressor

- Ensures green efficiency and boots compressor power.

One-screw to service everything

- Integrated condenser cover allows fast and easy service to fan motor, fan blades, klixon relay and compressor capacity. It's all just a single screw away from you.

New, high efficiency heat exchanger

- Light and compact tubeless condenser. Re-designed to maximize heat exchange and cooling efficiency.

Up to 60% more cooling power

- With respect to corresponding models within the previous HE series

Recirculation pump:

- 8/10 mt fan ø 40

Housing material

- steel plast base st. steel

Mid-Carb Blending Module

- Inline design allows flexibility for installation options
- Module mounting bracket
- Easy flow control adjustments to meet carbonation requirements
- Built-in shut-offs
- Built-in check valves

Carbonator

Solid State Control Module:

- Enhances electrical safety by utilizing a signal level voltage on the probe.
- Removable without shut-off of CO2 or water.
- LED diagnostic indicators.

Probe Housing:

- Zero moving parts and maintenance free.
- More durable and long lasting compared to conventional float switch designs.

Electrical:

- 115V or 230V, 1/3 HP, 1725 RPM

Tank Capacity:

- 2.5 gal.
- 9.46 L

Unit is ETL approved
