PRODUCT

**-30%**  
COST  
SAVING

### Solutions

- » Available in chrome or black finish
- » Cover customization possible with minimum batches
- » Standard upper medallion with personalized 3D fish-eye lenses
- » Illumination: all models are available with or without illumination

Medallion options:

- Upper
- Front
- Digital

# Nox Tower

## 1-2 Taps

### Fully in stainless steel

- » A tower with linear design, made in stainless steel AISI 304
- » **100% recyclable**
- » Perfect choice for extreme environmental conditions
- » Eco-friendly production process: no need for chrome treatment

### Solutions

- » Ideal for **installations in series**
- » **Illuminated or standard version**

Medallion options:

- Upper
- Static fish-eye
- 3D fish-eye lenses.

# Circular Tower

## 1 Tap

- » Choosing Circular means opting for a **sustainable product, made of 100% recycled compressed cellulose (RCC100%) and wood from sustainable sources**, all reinforced with resins and paints to make the tower water-repellent.
- » Available finishes:
  - natural cardboard + cherry wood
  - black + black wood
- » Illumination: all models are available with or without illumination
- » Standard front medallion with personalized 3D fish-eye lens
- Medallion options:
  - Digital

### Eco-friendly

- » **Compressed cellulose is a very resistant material** often used for the production of a wide range of products, spanning from furniture to building materials.

### Fully customizable

- » You can choose whether to keep cellulose with its original paper finish or customize it with a wrapping or color of your choice.

# Digital Medallions and LCD Screens

## Create a unique draft experience

- » Connect with your customers with dynamic contents
- » Involve your customers with more than a simple logo

### Digital medallions

- » Round LCD screen in high definition for videos and slideshows
- » **Compatible with all Vinservice Micro Matic towers** with 80 mm and 69 mm diameter illuminated medallions
- » **Maximize the visual impact** of your towers
- » **Communicate** with instant, highly-targeted and customized branding

### LCD Screens

- » 19" LCD HD screen for photos and videos
- » High brightness
- » Sunlight readable
- » Load your video with a USB Pen Drive

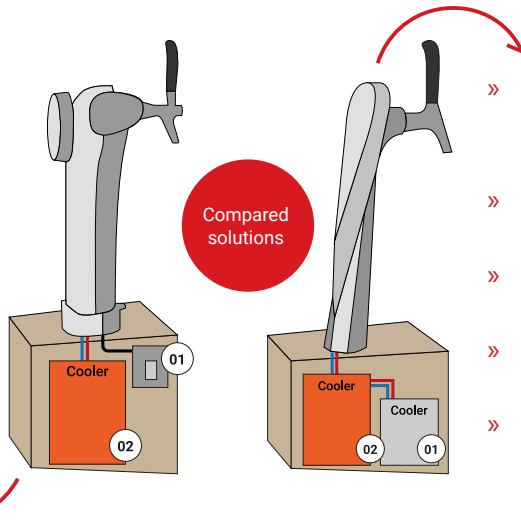

# Frozen Towers with Peltier Technology

## Save space and money

With over 50,000 towers on the market, Peltier technology is an innovative solution for draft beverage cooling that offers numerous advantages over traditional glycol systems.

- » WITHOUT glycol chiller: you only need the regular beer cooler
- » Stable and user-friendly technology: minimum maintenance
- » Energy consumption reduced by up to 40%
- » Less space required
- » Total control of the ice layer

- » WITH glycol chiller: you need 2 coolers (one for beer and one for glycol)
- » Glycol evaporation: maintenance costs
- » Higher energy consumption (+40%)
- » You need space for 2 chillers
- » No control over the ice layer

### Ice Fall

**Taps:** 1 to 4

Control box to set the time to start and melt the ice layer.  
Drain included.

### Bloom Ice

**Taps:** 1

Timer to set the time to start and melt the ice layer, drain included.

# Modular Towers

All brands, one tower: flexibility, convenience, quality.

Modular towers are an excellent option for companies that need to change the customer experience often.

Flexible solution, easily adaptable to the special needs of each point of sale.

The cover can be customized with minimum tooling investments.

The tower can be re-branded over and over even in the point of sale.

## Dart

**Body:** Corrosion-resistant phosphatized aluminium and ABS

**Illumination:** LED illumination

## Pearl

**Body:** glass-fiber reinforced nylon & polycarbonate

**Finishes:** Chromed, Gold, Painted, Hydrocoating

**Illumination:** LED illumination with 120 mm 3D personalized fish-eye lense

# Best Seller Towers

Off-the-shelf and most popular solutions available in several finishes.  
All towers are available with LED illumination 3D fish-eye lenses.

## Lucky

**Body:** Brass with Chrome, Gold, Copper,  
Painted finish

**Taps:** 1 to 3

## Flute

**Body:** Brass with Chrome, Gold,  
Copper, Painted finish

**Taps:** 1 or 2

## Industrial Style Towers

**New range of stainless steel towers with flanges and bolts for a more craft and industrial look**

**Body:** Stailen steel with  
Polished, Copper,  
Painted finish

**Taps:** From 1 to 12

## Shield

**Body:** Brass with Chrome, Gold, Copper,  
Painted finish

**Taps:** 1 to 3

## Sexy

**Body:** Brass with Chrome, Gold,  
Copper, Painted finish

**Taps:** 1 to 4

# On Request Towers

Top-of-the-range towers that can be customized to give a unique and special look to the location. Unleash your creativity and get inspired. All towers are available with LED illumination 3D fish-eye lenses.

## Super Sexy Premium

**Taps:** 1 - 2

## Spagna

**Body:** Brass, Chrome, Gold, Copper finish  
**Taps:** 1

## Old Brewery

**Body:** Brass with Gold or Copper finish  
**Taps:** 2 to 9

## Industrial Flag

**Body:** Stainless steel, Polished st. steel, Copper, Painted  
**Taps:** 2 to 6

## Fall

**Body:** Aluminium & ABS, Chrome (polished and brushed), Copper finish  
**Taps:** 1 to 4

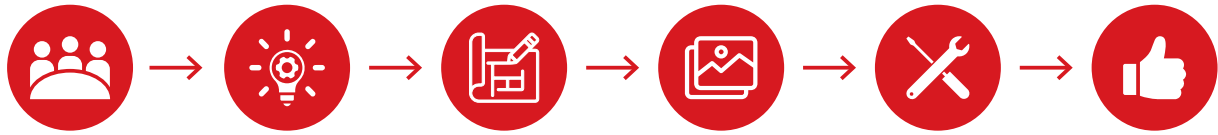

## Belgio

**Body:** Brass with Gold, Chrome or Copper finish  
**Taps:** 1 - 2

# Bespoke Towers

We have a 45-year experience in the development of bespoke dispensing solutions installed all over the world. We make your ideas come true, offering our expertise and support from the first draft to the final product with a thoughtfully planned development process.

## 1. BRAINSTORMING

Expectations, goal and prerogatives of the project.

## 2. IDEA

We develop ideas focusing on innovation, sustainability and the goals of the project.

## 3. FEASIBILITY STUDY

We sketch the ideas and provide a feasibility study based on estimated volumes and costs.

## 4. DESIGN

We put on practice the 3D models and any of necessary CAD studies.

## 5. M&T - PROTOTYPE

Moulds and toolings are created and the first samples are produced.

## 6. ROLL-OUT

We make the last adjustments to the samples and roll out the final product.

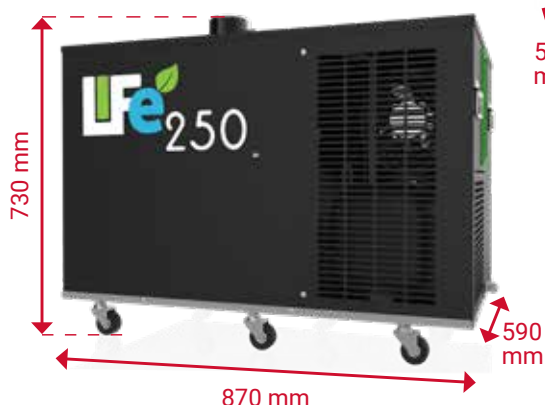

# Life R290 Pre-mix Chillers

## Energy-saving undercounter coolers

- » Increased cooling efficiency through optimization of internal air recirculation
- » High-efficiency compressor with environmentally friendly R290 gas
- » Improved cooling performance +30% compared to R404A/R134A
- » Stainless steel base, steel plast housing
- » Tank: tropical insulation
- » Easy access to key parts of the system through a service panel

Entire range certified by  
TÜV CB REPORT
